

El Instituto de Sistemas Optoelectrónicos y Microtecnología

CURSO 2013

PhD on Graphene at the UPM

Two positions for experimental research in the exciting field of graphene are offered, **on the following topics:**

1. CVD growth and characterization of graphene
2. Graphene-based energy storage devices

The work will be done in the clean-room and other facilities of the ISOM-UPM (www.isomgraphene.es), at the Escuela Superior de Ingenieros de Telecomunicación, Universidad Politécnica de Madrid.

Requirements:

- Master's degree in physics, materials science, engineering or similar by next July 2013.
- Ability to work independently when planning and carrying out complicated tasks, combined with a team-work attitude.
- Good communication skills in written and spoken English.

Please, send your CV to fernando.calle@upm.es
